

TEMPLE

UNIVERSITY®

Jan Tyler Applebarn • Instructor • Temple University CIS

Your design will change actively

conducted in the Inception Phase and Sprint 0.

You want to have a good fonting on initial design, backed by research

What is this document for? Can I make the thing that I wrote?

Ask yourself, was the design we proposed actually good?

System Architecture & API Specification

There should be continuity between the two documents.

• (Again ask yourself who is reading this?)

titleLinkbackoverprovide a<detail/><summary/> of the case

Labels such as "Case 1" or "Sequence Diagram 1" require a lot of

effort for the reader to jump back to the previous illustrative

• Your sequence diagram should contain technical detail.

My Class should have a ring binder and diagrams and

even your API spec
