Epics, Stories, Tasks, Bugs

Issue type	use
⚡ Epic	Epics will be used to monitor large features. They will be comprised of many smaller stories.
🔖 Story	Smaller code related units of features completable during a Sprint. Each is estimated using a value called Story Points. Points are measured as a unit of effort and are evaluated by the team.
☑️ Task	Non code related tasks. This could be server maintenace, Business meetings, anything that should be telegraphed to the team.
🟥 Bug	Bugs that are found during development, or in production environment. Bugs should always be associated to a version, and environment.
